Last month you may have heard that we celebrated a HUGE milestone: we flew our 1,000th patient to the hospital! We are so grateful for everyone who has supported and prayed for our organization throughout the years; many of you have stood by us since before our very first flight! Though we are excited to have been able to bring medical access to 1,000 patients over the years, this milestone also reminds us that our work is not done. There are still many people that need access to the region’s only hospital, and many that also do not know the hope of Jesus.

Over the years we have come to the aid of women facing life-threatening pregnancy complications, and even caught some emergencies before they've happened thanks to a donated ultrasound. We have helped men, women, and children of every age who have suffered from tuberculosis, malaria, snake-bite, broken bones, and tribal warfare. We have also had the privilege of preventing epidemics through the delivery of medicine and vaccines.

We have been blessed by the work of pilots, flight nurses, and volunteers that have helped us respond to each and every emergency call. To those of you who give generously to help fund these flights, thank you. Of the patients we have flown to the hospital, 96% of them survived and were able to go home to their families and villages. Those people were given a second chance because of your generosity.

Thank you!
BE A PART OF OUR LIFESAVING WORK!

TO REACH OUR GOAL, WE NEED:

5 donors at $200/mo
10 donors at $100/mo
15 donors at $50/mo
32 donors at $25/mo

If you haven't joined our team of monthly supporters yet, this is your chance to start! Help bring hope to those who need it most by enabling us to respond to the emergency calls that come in. Your monthly gift of any amount allows us to be here, right where God has placed us.

The Past Month in PNG:

- We just completed another large vaccination outreach and delivered the third round of polio vaccines! As part of the National Polio Campaign, we've delivered 200,000 polio vaccines along the Sepik river!

- The Moscas, our new pilot family, have just arrived in Papua New Guinea. Please pray for them as they get settled and begin their culture and language orientation.

- Our new plane was dedicated in Papua New Guinea on March 22nd!

MAR STATS

26 emergency life flight patients flown in
3,525 lbs. of medical supplies & vaccines delivered
79 total flights in March
36 of those flights related to the National Polio Campaign
